

DRIVELINE SYSTEMS

Delivering tailored solutions and superior customer support

Driveline Solutions for Every Vehicle Platform

Nexteer's wide range of driveline technology solutions can accommodate various configurations, and we can also custom-engineer components to meet an OEM's specific needs, including challenging NVH requirements in EVs.

Engineered for Every Drive Type

- Durable, dependable solutions for high-efficiency front-wheel drive vehicles
- High-performance halfshafts that enhance the driving experience in all-wheel drive vehicles
- Compact, low-lash solutions for rear-wheel drive vehicles

Key Advantages

- Tailored, efficient, low-mass solutions
- Seamless vehicle integration
- Exceptional durability
- Superior NVH performance and comfort
- Diverse product portfolio + Over 60 years experience = Better value, solutions and options
